EDUCATION

Ph.D., Economics, Dual Major in Environmental Science & Policy Michigan State University	May 2026 (expected)
M.A., Economics Seoul National University	August 2019
B.A., Economics, <i>Summa Cum Laude</i> Seoul National University	February 2016

RESEARCH PROJECTS

Do EV Charging Stations Care about Electricity Rates?

- Constructed a panel data set from disparate utility, government, and commercial sources to create a unified database for analysis using Python.
- Analyzed the nationwide relationship between electricity tariff structures and EV charging station deployment using the eight-year panel dataset and Stata.
- Quantified the effect of policy intervention, demonstrating that targeted tariffs reduced demand charges DC fast charging stations and spurred the installation of 1-2 additional charging ports per zip code.
- Presented key findings at multiple conferences, including the Western Economic Association International Annual Conference, effectively communicating complex results to expert audiences.

The Impact of Extended Driver's License Renewal on Fatal Crashes Among Older Maryland Drivers Across Urban and Rural Areas

- Synthesized data from the Fatality Analysis Reporting System (FARS) with manually collected state-level policy data to construct a novel dataset for the analysis.
- Evaluated the public safety impact of Maryland's driver's license renewal extension on fatal crashes involving senior drivers (65+) using the Synthetic Difference-in-Differences (SDID) method.
- Quantified a statistically significant increase in fatal crashes, vehicles, and persons involved in accidents for senior drivers in urban counties post-policy change.

WORK EXPERIENCE

Technical Assistant (Part-time), Michigan State University

Fall 2024 - Summer 2025

- Spearheaded a comprehensive digital overhaul for Prof. Richard T. Baillie, managing his professional webpage and publications while serving as the primary liaison with the IT department to resolve critical technical issues.

Research Assistant, Michigan State University

Spring 2024

- Supported faculty research on the Indian regional economy by collecting Indian district-wise data using Stata and Python.

Instructor/Teaching Assistant, Michigan State University

Fall 2019 - Spring 2023

- Delivered instruction across a range of graduate and undergraduate economics courses.
- Led weekly recitation sections for the Ph.D. core Microeconomics sequence.

SOFTWARE SKILLS

PYTHON, MATLAB, L^AT_EX, STATA, R
